

PBHF NEWS RELEASE

Date: 14-1-2014

Following consultation with the Border Collie Breed Council and the Health Coordinator, the Kennel Club has recently approved two new official DNA testing schemes for multi-drug resistance (MDR1) and Imerslund-Grasbeck syndrome (IGS).

The Pastoral Breeds Health Foundation runs regular clinics offering ALL genetic tests for Border Collies – with discounted fees. The next such clinic will be held at the KC building at Stoneleigh during the Midlands Border Collie Club Open Breed Show on January 31st 2015. To participate at this clinic (either by post or in person) please contact the PBHF Chairman, Kathie Kinton, by e-mail kinton.kinaway@btinternet.com or through the PBHF website (www.pbhf-dog.com) or the PBHF Facebook page, where full details can be found. Please check back here for further clinic dates.
